## DUTCH BULBS

Prices on Dutch Bulbs are higher this year. This is because the Holland Government has taken over the Bulb industry attempting to stabilize prices. There will be fewer bulbs brought into the country this year than ever before. Therefore, it is imperative you order early.

We import our bulbs from a most reliable grower, who digs and packs for us bulbs of the higher quality.

In order to secure the thousand rate on Tulips, at least 250 or multiples thereof must be ordered.
